Nicholas Brown
Curriculum Vitae

Nick has build two houses with his father and renovated three more. He's spent half a year camping around Australia and he's lived in Japan. Recently he attended an Artificial Intelligence workshop in San Fran and completed a web-development internship in Melbourne.

He has an insatiable book appetite. He cares deeply about those around him. His friends enjoy his company and banter. He has built a computer from the ground up. He manages the website for his family's Wine Tours business.

During his science degree, he founded the Anu Rationality Society, and served as a board member and volunteer for the Effective Altruism Society.

Nick is driven, thoughtful and resilient. His curiosity drives him to understand how the world works. He was School Captain of his high school, Mt Carmel. He plays guitar and likes to sketch.
